CORPORATE LOW
DEMOUNTABLE GLASS WALLS

As your business grows and changes, your workspace needs to evolve along with it. Partition Systems has been helping businesses adapt to their changing organizational needs since 1970. Corporate Low demountable glass walls stands at the forefront of contemporary workspace design, merging sleek doors and glazing trends with its unique approach. This product distinguishes itself with a slender aluminum profile and butt-joint glazing, ensuring seamless panel connections for a clean, uninterrupted aesthetic.

CORPORATE LOW

Corporate Low demountable glass walls are factory fabricated with site assembled components—reducing downtime, cost, and mess. Units can stand freely or integrate with the existing architecture. Butt-joint glazing, ensures a seamless connection between panels for a clean, uninterrupted look.

Flexible Options

Choose between a variety of colours and custom finishes that fit the look of your organization. Clear anodized frames come standard, or choose powder coated frames from a selection of custom colours.

With your choice of full aluminum horizontal mullions or surface mounted muntin bars Corporate Low has you covered.

Precision Meets Elegance

What sets Corporate Low apart is its emphasis on butt-joint glazing, ensuring a seamless connection between panels for a clean, uninterrupted look. This not only enhances the visual appeal of the space but also maximizes natural light, fostering a bright and vibrant work environment. Elevate your office aesthetics and functionality with Corporate Low—where precision meets elegance in the evolution of modern office spaces.
